# *Sacred Sexuality A Retreat for Women*

**Led by Lindy James**

*We invite you into the temple of the goddess to experience,  
on a deeper level, the delight and freedom of being in your body.*

- Instruction, demo and practice giving & receiving sacred spot massage
- Slow down, be still and listen to the wisdom of our bodies
- Practice self breast massage
- Deepen the trust in our female intuition, and more...

The sacred spot massage is a unique initiation ritual and a healing process that activates the transformative power of the female Shakti.

The focus of this retreat is to deepen your capacity to fully embrace the sacredness of your body. In slowing down, direct experience can take on a fullness, a vibrant openness, in which we can see what truly wants to happen.

Lindy has a deep love of being with women who are awakening to their true selves. For many years, she has been ushering women into the Mysteries of the Sacred Feminine.

*Lindy James, has been a practitioner of western Tantra for over 25 years. She offers sessions in the "Art of Conscious Loving," facilitating workshops and groups with a grounded, accepting, and warm style.
